Sanner & Berry, who have opened a coodyear tire service station at 930 Foureenth street, are the first tire dealers in the city to come under the new arrange-ment that this company started putting nto effect yesterday. The Goodyear Tire and Rubber Company have inaugurated a plan whereby the dealer agrees to carry ce to his customers. A clause in the service station agreement which the deal-er signs provides that he shall not sub-stitute any other tire for a Goodyear when this tire is asked for by the customer. The idea is, that in the past some dealers have been in the habit of trying to get the customer to take some other article than the one he asked for because there was a greater profit in handling it.

If it is not one thing it is another in the automobile industry. First it was the shortage of raw material due to the war abroad. By persistent effort the manu-facturers succeeded in getting enough stock to keep up production. Now it is the shortage of available freight cars hat is delaying the shipment of the fin ished product. On September 1 there was a shortage of 14.281 cars. One reason given for this shortage is the fact that there are a large number of deals who permit their shipments to remain on the tracks for days before unloading them, either because they figure that it is cheaper to pay demurage than storage charges NATIONAL ELECTRICAL SUPPLY CO. "Everything for the car owner." 1330 New York av. Phone Main 6800. or because they have not the money available to lift the drafts. The railroads are now working on a plan to increase the demurage rate on a sliding basis until it reaches \$5 per day. They argue that every car thus tied up means one less in which to ship cars and that this method is the only one by which they can get their cars back in service
